

CLOUD READINESS ASSESSMENT FROM VISION TO REALITY

ADOPTING CLOUD IS EASY, RIGHT?

But have you thought about the following...

- How sensitive is your data?
- Where are you subject to regulatory compliance?
- Will your app architecture allow you to take advantage of the Cloud?
- How resource-hungry is your app? How will it perform in the Cloud?
- What is the impact of latency for consumers of your app?
- How will RTO/RPO be affected?
- Is your IT Operations ready to adopt IT Service Management?

THINGS TO CONSIDER

- Security & Compliance
- Application Architecture
- Performance/Capacity
- Latency & Connectivity
- Availability
- Support/Operations
- Licensing
- Financials

ABOUT RACKSPACE HOSTING

Rackspace® Hosting is the service leader in cloud computing and a founder of the open-source cloud platform, OpenStack™. For more information, visit www.rackspace.com.

RACKSPACE ADVISORY SERVICES CAN HELP

Our Advisory Services Team will work with your IT group to evaluate applications in your infrastructure that are candidates for migration. Through a series of interviews with key IT stakeholders and comprehensive analysis spanning several weeks, our Enterprise Architects will create your seamless *Journey to the Cloud*.

ADDITIONAL ADVISORY SERVICES

Not quite ready for the Cloud Readiness Assessment, but want to learn how the cloud can benefit your business? The *IT Evolution Workshop* is a great first step for enterprises that need to build a business case for cloud.

METHODOLOGY

- Review current enterprise applications
- Data collection through tools and interviews
- Analyze apps using multi-dimensional analyses and best practices
- Evaluate cloud readiness of each application in scope
- Recommend adoption strategy for Private/Hybrid/Public clouds
- Executive summary with actionable steps

GOALS

- Identify Cloud-ready applications
- Optimize IT spend and reduce TCO
- Bring business agility
- Mitigate risk and increase scalability
- Modernize IT to stay competitive

PARTICIPANTS

CTO, CIO, CFO, CMO and Business Units, Enterprise Architect, Data Center Architect
