

# MICROSOFT® SHAREPOINT® AT RACKSPACE®

## Reliable SharePoint hosting for when your business relies on SharePoint

The flexibility, feature set and ease-of-use offered by SharePoint make it the logical choice for many businesses when it comes to their Collaboration, Content Management, Business Intelligent and Document Management needs. As you turn to SharePoint to manage more of your business-critical processes and workflows, you need reliable SharePoint hosting, backed by solid SharePoint expertise, to keep your environment up, running and performing optimally.

Microsoft SharePoint at Rackspace® is a fully managed, dedicated server service that provides dependable and customizable Enterprise-class SharePoint hosting. Your dedicated team of SharePoint professionals will start by working with you on the architecture, design and deployment of your environment. Once your SharePoint infrastructure is up and running, your SharePoint team, including several certified SharePoint professionals, provides daily support, maintenance and troubleshooting. Dedicated SharePoint is deployed in a single-tenant environment, giving you increased security and the ability to fully customize your SharePoint infrastructure. Your SharePoint solution is backed by Fanatical Support® and the Microsoft technology expertise you would expect from the three-time winner of the *Microsoft Hosting Provider of the Year Award*.

Microsoft SharePoint at Rackspace gives you peace of mind knowing that your SharePoint hardware, architecture and management are in good hands, so you can stay focused on using it to meet your business needs.

### FEATURES AND BENEFITS

**Choice of SharePoint Foundation or Microsoft SharePoint Server** so you can choose the solution that fits your collaboration and content management needs.

**A Dedicated Team of Rackspace SharePoint Certified Professionals** that designs, implements and manages your solution using Microsoft and industry best practices.

**Advanced SharePoint Monitoring (optional)** lets Rackspace identify and respond to any issues, so you don't have to.

**Backup and Restore of Sharepoint Environment (optional)** secures your critical SharePoint data and gives you peace of mind.

**Anti-virus Protection (optional)** provides you with additional protection from viruses, worms, Trojans, spyware and other malware, safeguarding your SharePoint environment from intentional and unintentional contamination.

**SharePoint Partner Network** helps you customize your SharePoint solution to meet your specific business needs.

### About the Microsoft SharePoint Application

The SharePoint application integrates numerous capabilities, helping businesses to better manage and share information while also simplifying collaboration between departments and people.

### Both versions of SharePoint are available at Rackspace.

#### SHAREPOINT FOUNDATION

SharePoint Foundation is ideal for managing small projects, providing basic collaboration and content management capabilities such as team sites, document libraries, blogs, wikis, task & project lists, calendars, contact lists and forms libraries.

#### MICROSOFT SHAREPOINT SERVER

Microsoft SharePoint Server is a more scalable and intelligent application that's ideal for larger or more complex projects. Its added capabilities include collaboration, social networking (MySites), enterprise search, enterprise content management, business process and forms as well as business intelligence.
